

Motorboat support is available to transport camping gear and equipment from our MARSHALL site to your campsite at Marshall Beach or Tomales Beach and back. This service makes camping with sit-on-tops, which do not carry as much gear, more doable. It also makes it possible to set up a comfortable base camp with items which are not readily transportable by kayak, such as tables, chairs, coolers, firewood etc.

The fee for this round-trip service is \$25 per person, to our rental customers. The minimum charge for this service is \$150. Upon request we can try to group small parties together to offset this minimum fee.

For Tomales Bay sites north of Tomales Beach, a fuel and time surcharge will apply. For instance: White's Gulch: extra \$50. North of White's Gulch-base fee plus \$100 each.

NOTE: One motorboat load usually accommodates 6 campers. One load in volume is no more 4'w x6.5'l x2.5'h, 65 cu ft, (about a small pickup truck load-but only up to the sides), and no more than 600 lbs. in weight. A partial load is billed as a full load.

BWK will charge extra for loads exceeding these guidelines.

You are expected to help load/unload your gear into our boat at the site and at the beach.

One person in each party needs to be responsible for overages of loads. Please note: A group may pay \$ 25 pp and if they bring more than the allotted amount of volume and/or weight, they will be charged extra money.

HAPPY CAMPING!
